SpiderWeb Productions, Unlimited

1st Edition

SWPU is a DesignScience Studio. It was conceived to be the catalyst for creating make-sense designs for building a sustainable human existence. This first editions' primary objective is to bring about the essential elements that anchor the foundation of this work.

Before beginning, it would facilitate our efforts in this venture if we all understand that this is an ongoing commitment to sharing resources that will enhance the development of an ideal habitat spawned from the dreams and ideas of a paradise which we know can exist, and who are destined to build the critical path that will manifest its existence. Each subsequent edition of this work will expand as a direct consequence of a growing cosmic conscious community — natures family of life; and is charted for the inevitable eventuality — Perfect Harmony; even if it takes beyond a thousand years.

This story was launched on Good Friday/Earth Day/2011 Birthday,. It culminates a one month long celebration of the Spring Equinox and of our sacred place in space and time.

Told from the perspective of our sun, this story lays out a plan that will be celebrated for a thousand years in the hearts and minds of every man, woman and child. All is required is perseverance.

“Perseverance is a great element of success. If you only knock long enough and loud enough at the gate, you are sure to wake up somebody.”

©Henry Wadsworth Longfellow

This story is dedicated to my children, grandchildren, great grandchildren, you, and all those yet to be born.

If the answer is harmony; what is the question?
How long must we ponder the question before we
understand the answer?

To experience the benefits of living harmoniously, we must practice the art of living a harmonious life. ‘Seems like a simple enough hypothesis; but how many of us really understand the profound significance of this paradigm, and the simplicity of the act; so sublime and easy on the human psyche and the subtlety of its power. This is the power which will manifest the dreams of our children.

It's not so much about time as it is about “timing” and the personification of one's soul. You are the main character in the ongoing saga of your life. You have found yourself on earth in this moment with no moment before, or after. How do you sync with the oneness of this existence?

Harmony — The prime principle that empowers the monadic adventurer towards manifestation and ascension.

Practice yourself, for heavens sake in little things, and then proceed to greater.
